

A3: Truth tables (4)

Did you encounter problems with the background color being put on top of the lines?

This is usually caused by the viewers: try to zoom to a different level and see if the problem remains.

But now that we are talking about the lines, can you modify the table in such a way that you get exactly these lines:

p	q	$p \wedge q$	$\neg(p \wedge q)$	$\neg p$	$\neg q$	$\neg p \vee \neg q$
T	T	T	F	F	F	F
T	F	F	T	F	T	T
F	T	F	T	T	F	T
F	F	F	T	T	T	T
